CALLISTEMON MACARTHUR™ (b)

Compact variety with fresh green, tidy, new growth. It is a cross between the popular Little John & Captain Cook varieties.

Plant in full sun to part shade. Frost tolerant. Low watering requirements once established.

H 1.8m W 1.5-2 Unpruned

PITTOSPORUM SCREEN BETWEEN (b)

Screen Between is a naturally branching, dense plant to 3m requiring little pruning compared with other hedging plants.

It has silver-grey rounded foliage that contrasts beautifully against darker stems.

H to 3m W to 2m

NANDINA LEMON LIME (b)

Year round coloured foliage with bright lemon coloured foliage aging to lime green. A compact grower with a neat natural shape requiring no pruning.

Frost hardy. Plant in full sun to part shade in moist well drained soil. Moderate water requirements.

H 70-90cm W 70-90cm

HEDGING

COPROSMA LEMON & LIME (D)

Bright foliage colours of lime green and yellow that change to a deeper yellow in Winter.

Plant in full sun to part shade. Will tolerate being planted in coastal conditions and containers. Low water requirements. Water during extended dry periods.

H 1.5m W 1.5m

ROSEMARY TUSCAN BLUE

A small shrub to 1.5m. It has strongly aromatic, needle-like leaves that can be used in cooking. Tuscan Blue can be grown as a hedge and once established is extremely hardy requiring only minimal water.

In spring and summer the stems are covered in clusters of pale blue flowers.

H 1.5m W 1.5m

WESTRINGIA BLUE GEM™ (D)

A bushy growing variety that can be pruned to any shape. A mass of vivid bluish-purple flowers cover the plant in Spring. Tolerates a wide range of soil types.

Plant in full sun to light shade. Low water requirements once established.

H 1-1.5m W 80-1.3m

BUXUS - KOREAN BOX

A small evergreen shrub with shiny deep green leaves which may go bronze in Winter. Ideal for creating a low, informal or formal hedge. Prefers humus enriched soils. Plant in full sun or part shade. Will tolerate full shade.

H 90cm W 90cm

SYZYGIUM BACKYARD BLISS (D)

A superb fast growing, dense Lilly Pilly that grows to 3-4m. Its glossy, bronze new growth and glossy green mature foliage are psyllid resistant so the foliage stays clean and healthy. At 1m wide it is the perfect hedging plant around pools and courtyards.

H 4m W 1m

VIBURNUM QUICK FENCE™ (D)

A quick growing, dense shrub with large glossy green leaves, with tighter, bushier, upright growth making it a better variety for hedging.

Prefers well drained soil types. Plant in full sun or part shade.

Moderate watering required.

H 4m W 2.5m
