**ALTERNANTHERA  
LITTLE RUBY™ (b)**

Great contrast plant with it's stunning burgundy foliage. Great for borders and planting en masse in garden beds. Plant in full sun to part shade in well drained soil. Frost sensitive. Moderate watering requirements.  
H 30-40cm W 60-90cm

**CONOSTYLIS SILVER SUNRISE (b)**

This cultivar is a dwarf clumping form and has denser foliage. Yellow round flower heads appear in Spring. Great for rockeries, borders, low maintenance gardens or coastal plantings. Position in full sun in free draining soil. Low water requirements once established.  
H 20cm W 40cm

**GERANIUM BIG RED**

An easy to grow perennial with big brilliant semi-double blooms that appear in Spring through to Autumn. It has a mounding semi-trailing habit. Plant in full sun to part shade in well drained soil. Moderate water requirements.  
H 30-45cm W 40-50cm

(b) this symbol indicates plant is protected by the Plant Breeders Rights Act

## LANDSCAPING PLANTS

**NANDINA BLUSH™** (b)

Compact shrub with bubbly red blushing leaves for nine months of the year with main flush in Winter. Plant in full sun to part shade. Will tolerate heavier soils with reasonable drainage. Low water requirements. Water during extended dry periods.  
H 60-70cm W 60cm

**GAZANIA DOUBLE GOLD™** (b)

Hardy spreading groundcover with sterile blooms that flower prolifically from Sept to April. Great for rockeries, low maintenance gardens, coastal plantings or sand dune stabiliser. Position in full sun in free draining soil. Low water requirements once established.  
H 20cm W 60cm

**NANDINA OBSESSION™** (b)

Fine leaf variety of Nandina with gorgeous red new growth through most of the year. It is an upright dense plant ideal for low hedges, borders and as a feature plant. Position in full sun to part shade. Frost tolerant.  
H 60-70cm W 60-70cm

**LOMANDRA VERDAY** (b)

Hardy native grass that is drought and frost tolerant. It has arching, semi-pendulous foliage that add movement to the landscape. Tolerates coastal sites and a wide range of soil types from sandy to clay. Low water requirements once established.  
H 60cm W to 1m

**SYZYGIIUM australe  
BUSH CHRISTMAS** (b)

Bushy shrub with a compact habit that can be trimmed into a dense hedge or topiary. Bronze new growth in Winter. Has edible pink berries.  
H 2-3m W 1.5m Can be pruned much smaller

**TRACHELOSPERMUM  
FLAT MAT™** (b)

A lower growing flatter type of Japanese Star Jasmine. Clusters of small white star flowers appear during Summer. Can also be used as a climber. Plant in full sun or part shade. Moderate watering required.  
H 30-40cm W 3-4m
